the ancient village of Zagarolo ...

it is our medieval & renaissance Old Town, where our *albergo diffuso* '*Borgo dei Sagari*' is located at walking distance from *Wiki Hostel* in the green wine area known as *Roman Hills*. This is a typical ancient village featured by an active local community and several interesting spots to see as the beautiful and romantic alleys, ancient churches, medieval arches decorated with roman empire & pre-roman elements, roman fountains and the magnificent Castle : '*Rospigliosi Palace*' with its Toy Museum, Library & cultural events ...

History ...

Zagarolo leaves traces of its origins unclear alleged **Gabinii** (people from the pre-roman village **Gabii**) escaped the massacre or rather it was home of the so-called “**Sagarii**” (or *Zagari*) people that with their work adorned the look and dress of the Roman legionaries with the typical **cap**es of red garnet called **Sagum**. The place where they used to live was called **Sagatorium** ...

The red garnet of the Sagum it is still now the official color of the municipality of Zagarolo ; as the famous Roman **SPQR** the official symbol of Zagarolo still now shows its origins with the latin initialism **SPQG** ...

The first historical documents date back to the **970 a.c.** but all the areas talks about its roman time. Several time destroyed in the war between the *Pope* and the *Colonna* nobles family, the actual historical centre dates back to the **middle of the XVI century**. The historical centre is so featured by *Medieval* and *Renaissance/Baroque* time plus some *Roman* and *pre-Roman* elements.

about the Sagum ...

The **Sagum** (cloak) was a garment of note generally worn by members of the [Roman military](#) during both the [Republic](#) and early [Empire](#). Regarded symbolically as a garment of war by the same tradition which embraced the [toga](#) as a garment of peace,^[1] it was slightly more practical in any event, consisting of a simple rectangular segment of cloth fastened by a leather or perhaps metal clasp and worn on top of the armor. The fabric was made of unwashed wool, saturated with [lanolin](#) (which made it water-resistant); it was traditionally dyed bright red.

typical food & Wine ...

For centuries the Zagarolo people (*“zagarolesi”*) used to produce & deliver the local wine to Rome, the horse carriage was called *“carretti a vino”*....
